

Product information | TECHNICAL DATA SHEET

GRANITE EFFECT.

400 ml, 10,93 Oz, 310 g.

GENERAL DESCRIPTION

Decorative paint that gives a stone/granite appearance to all types of surfaces (metal, plastic, glass, polystyrene, etc.). To increase its adherence, apply a specific primer that is suitable for the surface being painted. Ideal for interiors. For exteriors we recommend adding a protective varnish to increase resistance.

CHARACTERISTICS

- Stone / granite-like appearance.
- Good adherence.
- Easy to apply and re-paint.
- UV resistant.

INSTRUCTIONS FOR USE

- Shake the spray can well before use for about one minute after hearing the sound of the mixer ball.
- Apply to clean, dry surfaces. Clean the surface with a degreaser or any other product that is suitable for concrete surfaces. On PP, apply a primer coat.
- Apply 1 or 2 coats to obtain the desired effect. Apply at a distance of 20-30 cm, allowing for a good distribution of the particles being applied to the surface.
- Do not apply to plugged-in electronic equipment and use in well-ventilated areas.
- Request safety data sheets.

PHYSICAL FEATURES

Binder type:	Mixture of resins
Color:	black-grey
Dry to the touch (ASTM D-1640 ISO 1517):	1h
Total dry time (ASTM D-1640 ISO 1517):	24 h
Rendimiento teórico (pintado continuo):	0,5 m ²
May be repainted after:	24h
Shelf life:	< 5 years (Correctly stored)
Resistance to heat:	100°C
Application conditions:	Atmospheric temp.8°C
	Surface temp 5°-35 C
	Max. Humidity. 85% R.H.P

PACKAGING

Capacity 400 ml.
Packaging heat resistance: <50°C
Propellant: DME

Box (6 units)
205 X 140 X 200 mm

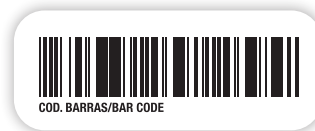

APPLICATION

Can be used on all types of surfaces including metal, wood, plastics, polystyrene, stone and glass. To increase adherence in cases where necessary, apply a specific primer that is suitable for the surface being painted. May be used indoors. For outdoor use, apply a protective varnish to increase resistance to weathering.
